To Whom It May Concern,

I'm A Physical Therapist That Works In A Variety  
Of School Settings + Buildings. I work Hand-In-Hand with  
Many Paras + The Services That They Provide Are Invaluable.  
Paraprofessional's Attendance At Trainings And Years Of Experience  
Should Be Considered As Meeting The Standards. I would Also  
Consider Revising The Decision To Make 2 Years Or More Of Post  
Secondary Education Part Of The Requirement For Hiring New  
Paraprofessionals. I Do Understand The Intention Of The State  
Board But We Must Be Aware Of The Practical Side Of The  
Issue.

Thank you for your consideration.
