Dear Mr. Kaufman,

I am writing to express my concern with the numbers on the caseload chart in the proposed final draft of changes to Chapter 14. Of special concern are the numbers proposed for caseloads for Learning Support, Like Skills Support, and Emotional Support especially regarding the supplemental and full time caseloads. I would suggest lowering the supplemental caseloads in these three categories by 5 each, and lowering the full time categories by at least 3.

I appreciate how much work and effort has gone into these proposed changes and I appreciate your attention to my concerns.

Thank You,  
Sincerely,

Evelyn Gomez
