Subject: Homecare Regulations

I know it is past the deadline but I wanted to point out an oversight that we did not notice when supplying our comments.

Under § 611.55 subsection (c) it states "...successfully completed one of the following." It then goes on to list sections 1-3. Per the statute subsection (d) should be (4) and the subject areas should be re-labeled according to the outline structure being used in the regulations. Subsections e-g would then also change accordingly.

It was brought to our attention after the fact. I hope this adjustment is something else the Dept. will consider.

Please let me know if you would like us to submit a formal comment or if it too late for such a comment.

Thanks,

Eric S. Kiehl
