Re: PA Bulletin Doc. 07-1552  
Proposed Rulemaking 16A-5418  
Amends 27.18 (s) (2) eliminating the prescription requirement for the sale of  
hypodermic needles and syringes

Dear Ms. Zimmerman,

The Pennsylvania Pharmacists Association supports and endorses this proposed rulemaking in the interest of public health and safety. We believe the 30 limit and the age requirement continue to be appropriate conditions when removing the prescription requirement.

We feel prompt attention to finalizing this regulation is appropriate

Sincerely,

Patricia A. Epple, CAE  
Executive Director
