**Subject:** Support Of Gifted Education In Schools

**Message:**  
I don't understand why you want to take away a good thing? Gifted education has been around for years. We must stay strong in PA with educating our children and on the cutting edge, as many other states are. If we take away this program, we are only giving into mainstream education. I have one child graduating in this state and two more to follow. I want to feel comfortable that our schools in PA are doing all that they can do for all the students. Please keep the gifted edu. in our schools! Sincerely,

10/1/2007
