Dear Sir:

I am a physician assistant that works for both an osteopathic physician and medical physician in Pennsylvania; however my osteopathic physician is my supervising physician. Therefore I do not have prescriptive privileges.

I am in full support of the proposed regulations for delegated prescriptive authority for the physician assistant under the supervision of the osteopathic physicians. This proposed regulation truly needs to be passed, so we as physician assistants can have consistency no matter for which type of physician we are employed.

Thank you for your attention to this matter.

Sincerely,

Nancy Wallroff, PA
