Dear Dr. Fasano:

I am writing this to express my support for prescribing rights of Physician Assistants who work under DOs. PAs have been safely writing prescriptions under allopathic doctors.

I believe that access to care will be greatly enhanced because PAs who are currently supervised by DOs will be able to practice to the full extent of their training. This will reduce waiting times, increase availability of appointments and allow physicians to work on more complicated cases.

Thanks for your time.
