INDEPENDENT REGULATORY
REVIEW COMMISSION

October 30, 2007

Dear Dr. Fasano

It was a welcomed change to recently hear that the proposed regulations for delegated prescriptive authority for physician assistants were published in the Pennsylvania Bulletin. I have worked, as a substitute supervising physician for a physician assistant for nearly three years and have been looking forward to these changes.

Over the years I have witnessed firsthand the education and experience of our PA and I have no doubt that she is capable of prescribing appropriately. You need only to look at the track record of PAs who work with allopathic physicians to see that this relationship can work safely.

I hope that you will continue to work to see these regulations passed in a timely manner. I also hope to see that the osteopathic regulations are equivalent to the allopathic board as we have already seen their success.

Sincerely,

Brian K. Nemunaitis, D.O.
