Dear Dr. Fasano:

I am a PA student at PCOM and am writing to support the passing of the proposed osteopathic prescribing regulations for physician assistants. These regulations should be written the same as the allopathic regulations which should avoid any confusion in clinical practice. PAs have been writing prescriptions under allopathic physicians for many years. Attending an osteopathic school has really made me want to work for a DO, but not being able to write prescriptions would make this difficult. PAs are supposed to help alleviate the healthcare shortage, if we do not have prescribing writes under osteopathic physicians this is just continuing the healthcare shortage and not helping it. I appreciate taking this letter into consideration,

Thank you.
