Dear Dr. Fasano:

I am presently a PA student at PCOM. I fully and strongly support the regulations allowing DO's to delegate prescribing rights to PA's. I request that the regulations be worded exactly the same as the allopathic regulations to avoid any confusion in clinical practice. PA's have been safely and effectively prescribing in Pennsylvania since the mid-1990's. By allowing these regulations, access to care will be improved because PA's who are currently supervised by DO's will be able to practice to the full extent of their training. These regulations will also give DO's the same rights as MD's to improve care for their patients. Thank you for your time and consideration in this important matter.
