Dear Dr. Fasano,

As a PA student, I am writing to support the proposed osteopathic prescribing regulations for physician assistants. PAs have been safely prescribing under the supervision of allopathic physicians for years and now is the opportunity for osteopathic physicians to be able to supervise PAs with delegated prescriptive authority. Patients of osteopathic physicians will appreciate increased availability of appointments to fit individual schedules and encounter reduced waiting times at the office.

Improvement of patient safety and access to care is the primary concern when considering the proposed regulation.

Sincerely,

Daryl L Krouse, PA-Student
