Dear Dr. Jassano,

Please support the proposed prescribing regulations for Physician Assistants.

I have been in a successful professional relationship with Franca C. Bucco D.O. for over seven years. We work closely and she will decide what drugs I will be permitted to prescribe.

I am able to extend patient care in her practice and this benefits our patients. Prescriptive privileges will improve care for patients by removing barriers to care.

I thank you for your attention.

Sincerely,

Ann C Brown, PA-C
