Dear Dr. Fasano,

As a physician assistant student in the
Commonwealth of Pennsylvania, I support
the proposed osteopathic prescribing regulations
for Physician Assistants. Physician Assistants
have been a vital part of a healthcare
team for many years and deserve to
use all of their skills in any field for
which they choose. If this privilege is
granted, osteopathic offices will be more
inclined to hire PAs who have been proven
to double productivity and patient flow
through the office. I strongly encourage this
privilege be granted to all physician
assistants in Pennsylvania.

Thank you for your time,

Anna Velto, PA-S
