Dear Dr. Fasano:

I am writing in support of the proposed osteopathic prescribing regulations for physician assistants. These regulations should be worded exactly the same as the allopathic regulations to avoid any confusion in the clinical practice.

Access to care will be improved because the PA's supervised by DOs will be able to practice to the full extent of their training. Osteopathic physicians and hospitals may be more likely to hire PAs.

As always the individual physician will decide whether his/her PA will prescribe and what drugs the PA will prescribe. Thank you for your consideration.

Sincerely,

Dawn Cekovsky, PA-C
