RECEIVED

We, the undersigned employees of The Lebanon Treatment Center, would like to formally state our opposition to the proposed changes in PA Code 255.5(b), Draft Rulemaking Regulation No. 10-186, regarding patient confidentiality. It is our belief that the proposed changes will further perpetuate public stigma as it relates to the disease of addiction, will lessen access and duration of treatment for patients in need, will cost treatment facilities additional expenditures to comply with mandated releases, and will not benefit consumers of treatment services.

[Comments]

I oppose the proposed changes due to the increase in patient impact on treatment confidentiality.

I oppose the changes as I feel it won't benefit patients in tx and may be a barrier to patients gaining tx.

I oppose the changes as it won't benefit clients full confidentiality.

I oppose the proposal. I oppose the proposal because it will affect confidentiality.

I oppose the proposed changes. Patient health history will lose confidentiality status. And increased risk of patient losing treatment opportunities. *[Signature]*
