Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

I really hope you do away with diesal engines or at least have them pass the same inspection on emission standards as regular gasoline cars. The air particularly on a cold winter morning is unbearable It hurts to breath. I think school buses are the worst offenders. thank you for allowing me to comment sincerly Sarah Boucas neto ^^^^^
