Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422) INDEPENDENT REGULATORY REVIEW COMMISSION

## Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

## The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information: nancy matthews

122 parker st carlisle PA 17013 US

Quick, prompt action on limiting amount of idling by diesel trucks and buses is what we are waiting for. How many people are literally suffering from respiratory diseases because of the pollution of air caused by diesel idling? While you are dragging your feet, how many new cases of respiratory diseases have occurred? Action and money is needed to have enforcement agenices to enforce the idling. Currently, we have little enforcement on speeding and other traffic laws broken, so enforcement must be addressed and how you are going to do it. Let's stop the talk and walk the walk for a change.

Please contact me if you have any questions. Sincerely, Michele L. Tate
