Dear Members of the Environmental Quality Board, I am writing to support anti-idling legislation for the state of Pennsylvania. As a resident of the state who enjoys the quality of life in my small town of Carlisle and the beauty of our natural landscape, I am concerned that we are jeopardizing both the health of our citizens as well as the environment by allowing trucks to idle for long periods of time at warehouses and in parking lots. As an avid athlete and a singer, the quality of our air is a sincere concern of mine -- especially as Carlisle is ringed by many truck stops, warehouse depots, and large "box store" lots where trucks often idle overnight. I urge you to pass this important legislation for the health of our children, our communities, and the earth. Pennsylvania has an opportunity to be a progressive agent for climate care and environmentalism. I hope that you decide to take the long view and protect our right to breathe easily and live healthily. Please pass this anti-idling resolution! Sincerely, Amy Wlodarski 402 S.
