Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422) NDEPENDENT REGULATORY

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information: Victoria Sams

Carlisle PA 17013 US ^^^^^^

I am in favor of the restrictions being proposed on idling, as well as any other bills that would improve the air quality in the Cumberland Valley. The consequences of allowing our air quality to deteriorate are too grave to accept. The current levels of air pollution are already taking too great a toll on so many here in the region, particularly the most vulnerable residents (children and elderly). Many thanks for hearing us out on this subject. ^^^^^^^^^^

Please contact me if you have any questions.

Sincerely,

Michele L. Tate
