ENVIRONMENTAL QUALITY BOARD

To whom it may concern:

Children love to paint and to draw at The Carlisle Arts Learning Center. Their drawings are filled with bright flowers and vibrant animals and green trees and blue skies. Please support the Anti-idling Law that was recently passed by the State Senate so that the children of the Carlisle Arts Learning Center can continue to work with a vision of blue skies and a clean and colorful earth.

Thank you for your support and concern of this bill. It is extremely important to make sure that our community remains healthy by the choices that the citizens and the government make.

Sincerely,

A handwritten signature in cursive script that reads "Carrie Breschi".

Carrie Breschi
