Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7,422) REGULATORY

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information:

Carl Benson

I realy hope your state is more realistic about idling. Here in Calif. we have 8 very uninformed people who are making rules that are stupid and won't listen to us who have to under there rules sleep in a truck sleeper without air conditioner's or heat. We all know no law maker has to live like this in there homes, offices or car's. I have no problem shutting the engine off when there is no one in the truck. Carl Benson

Please contact me if you have any questions.

Sincerely,

Michele L. Tate
