Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

INDEPENDENT REGULATORY
REVIEW COMMISSION

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information:

Krista Klett

Carlisle PA 17013 US

Dear members of the Environmental Quality Board: I am writing to support the regulations to limit the amount of idling by diesel trucks and buses. Not only does diesel engine idling waste fuel, it harms the health of drivers, workers, and residents of our community. Modern technology can control diesel emissions and avoid the need to run large diesel engines only for heating and cooling. We ask that you vote for this regulation to improve our air quality. Sincerely,

Krista L. Klett

Please contact me if you have any questions.

Sincerely,
Michele L. Tate
