Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7, 422) REGULATORY

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information: elizabeth kelly colly company ltd collykelly@aol.com 98 windridge dr west chester PA 19380 US

In earlier eras we saw no need for concern regarding the time trucks sat idling at roadside stop & the like. We now have a vast number of vehicles on our highways & more knowledge about the dangers of exhaust. Now is the time to make the right changes to safeguard our health .
