I urge all legislators to support the proposed Diesel Vehicle Idling and Auxiliary Power Systems amendments to 25 PA Code Chapters 121 and 126. While there are many scientific reasons - health, fuel economy, air quality - just good ol' common sense of walking behind an idling vehicle, or seeing a vehicle idle for an extended period of time, should tell us that it's not a good thing. So please exercise your judgement and vote to curtail diesel idling. Thank you
