Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

As a resident of the borough of Carlisle, as a nurse and a parent, I am deeply disturbed with the diesel "pollution" in our community. I suffer from breathing problems that I never had before. I see children at school that are new to our area. The parents comment that their children never used an inhaler before living in this area. You're destroying our environment.

Please contact me if you have any questions.
