~~~~~

I strongly urge you to improve air quality in Pennsylvania by approving the proposed Diesel Vehicle Idling and Auxiliary Power Systems amendments to 25 PA Code Chapters 121 and 126. Idling hurts our environment, our pocketbooks (we all pay for waste), and most importantly our health (diesel fumes are bad for the cardiovascular and pulmonary systems). Additionally, current laws are not up to date with the federal Clean Air Act. Let's get Pennsylvania back on the right road to environmental, financial, and health-related well-being!

~~~~~

Please contact me if you have any questions.
Sincerely,
Michele L. Tate
