Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7 422)

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information: Lindsay Nelson LadyBugLandscaping CraigsYard@aol.com 274 MIll Dr Levittown PA 19056 US ^^^^^

I do not like Diesel Powered anything because the fumes are terrible. It use to be the good smells of the Great Outdoors now all I smell is Diesel, Trash Mountain, Coal and everyones heater fumes. I am on constant allergy medications. All of these fumes is bad to be breathing in every day I even work outside for a Living. Smoking Cigerettes is not the problem Its all the fumes we are breathing in everyday! DUH!

Please contact me if you have any questions. Sincerely, Michele L. Tate
