Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422) NDEPENDENT REGULATORY				

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

Commentor Information: Fred Patterson Patterson Trucking fpatterson5@woh.rr.com 5303 Bayview Rd. Celina OH 45822 US

I believe unnecessary ideling of trucks should be stopped but I think a 40 & 75 degree rule is too low.60 TO 80 should be considered.

Please contact me if you have any questions. Sincerely, Michele L. Tate
