Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7,422) ENDENT REGULATORY

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

To Whom It May Concern: I want to encourage you to take legislative action to limit the idling of diesel engines in Pennsylvania. Idling of engines is a wasteful and unnecessary cause of much pollution in this state and throughout the world. Please act to make Pennsylvania healthier for its citizens and itself a better citizen of the world. Very truly yours,

Dr. David Brodsky ^^^^^^
