Subject: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

INDEPENDENT REGULATORY
REVIEW COMMISSION

Re: Proposed Rulemaking - Diesel Vehicle Idling; and Auxiliary Power Systems (#7-422)

The Environmental Quality Board (EQB) has received the following comments regarding the above-referenced proposed rulemaking.

~~~~~  
The need to reduce air pollution from idling is critically important to us since we both have asthma and Judy's has become much worse in the last few years in Carlisle. This law will do more good for air quality and individual health than the law to reduce exposure to second hand smoke. We can avoid second hand smoke by avoiding places where smoking occurs, but we have to breath the air in Cumberland County. Frank P. Castrina MD and Judy E. Castrina RN
