Petition - Clean Air Board - Petition Supporting the Adoption Regulations Limiting Diesel Vehicle Idling - 60,000 trucks in 24 hours - We are residents of Pennsylvania and we are concerned about the quality of the air we breathe. We support efforts to reduce diesel emissions, including the proposed regulations to limit the time a commercial diesel vehicle can idle. We ask the Environmental Quality Board to move quickly to adopt the proposed regulations. We ask the Department of Environmental Protection to enforce the regulations after they are adopted. We urge DEP to implement an extensive driver education campaign to ensure the program is effective. Respectfully,

Please contact me if you have any questions.
