ENVIRONMENTAL QUALITY BOARD

To whom it may Concern

It has been concern in our neighborhood from air pollution and noise from sitting still. locomotives ideling for hrs and from 1 to 3 days at a time. spilling out diesel exhaust. In the summer if you open windows to get air lay ar night the stench from that is terrible it makes it unbearable to sit out on the porch it seems to us that its a waste of fuel and awful air pollution from this practise. Surely they have to be turned off sometime. and re started with all of the modern technology it must be possible. Its not so bad when they are moving thru. but sitting for days or hrs ideling is bad the soot gets all over everything.

Very Concerned Citizen

our location is by the Wheeling + Lake Erie RR.
building 200 Hawthorn ave corner of Brunswick Pl.
Greentree PA 15106
