## P R O C E E D I N G S

-----

MR. HENDERSON:

Good afternoon. I would like to welcome you to the Environmental Quality Board's public hearing on the proposed NOx Emission Standards for Glass Melting Furnaces rulemaking. My name is Patrick Henderson. I am a member of the Environmental Quality Board representing Senator Mary Jo White. I call this hearing to order at 2:05 p.m.

The purpose of this hearing is to formally accept testimony on the proposed NOx Emission Standards for Glass Melting Furnaces rulemaking. In addition to this hearing, the Environmental Quality Board will hold hearings on the proposed rulemaking in Wilkes-Barre on May 21st, 2008 and in Pittsburgh on May 23rd, 2008.

The proposed rulemaking is a part of the Commonwealth's strategy to reduce ozone transport to achieve and maintain the health-based eight-hour ozone national ambient air quality standard. The rulemaking establishes NOx emission control requirements, emission standards and emission limitations for glass melting furnaces during the ozone season, May 1st through September 30th, as well as other requirements

1 for the purpose of reducing NOx emissions from glass  
2 melting furnaces effective May 1st, 2009.

3           Glass melting furnaces are one of the  
4 largest industrial NOx emission source categories in  
5 the Commonwealth and account for approximately 21  
6 percent of the more than 45,000 tons per year of NOx  
7 emitted into the air from all non-electric-generating  
8 units in the Commonwealth. Under this rulemaking, the  
9 owners or operators of these facilities will be  
10 required to meet NOx emission limitations and emission  
11 standards and to comply with administrative  
12 requirements, including emissions monitoring and  
13 reporting.

14           Compliance options, including emissions  
15 averaging and the use of CAIR NOx Ozone Season  
16 allowances, are included in the rulemaking to provide  
17 owners and operators flexibility in meeting the  
18 proposed standards. During the development of the  
19 proposed rulemaking, the Department consulted with the  
20 Air Quality Technical Advisory Committee and the  
21 Citizens Advisory Council's Air Committee.

22           In order to give everyone an equal  
23 opportunity to comment on this proposal, I would like  
24 to establish the following ground rules. One, I will  
25 first call upon the witnesses who have pre-registered

1 to testify at this hearing. After hearing from these  
2 witnesses, I will provide any other interested parties  
3 with the opportunity to testify as time allows. Two,  
4 testimony is limited to ten minutes for each witness.  
5 Three, organizations are requested to designate one  
6 witness to present testimony on its behalf. Four,  
7 each witness is asked to submit three written copies  
8 of his or her testimony to aid in transcribing the  
9 hearing. Please hand me your copies prior to  
10 presenting your testimony. Five, please state your  
11 name, address and affiliation for the record prior to  
12 presenting your testimony. We would appreciate your  
13 help by spelling names and terms that may not be  
14 generally familiar so that the transcript can be as  
15 accurate as possible. Six, because the purpose of the  
16 hearing is to receive comments on the proposal, EQB  
17 or DEP staff may question witnesses. However, the  
18 witnesses may not question the EQB or DEP staff.

19           In addition to or in place of oral  
20 testimony presented at today's hearing, interested  
21 persons may also submit written comments on this  
22 proposal. All comments must be received by the EQB on  
23 or before June 23rd, 2008. Comments should be  
24 addressed to the Environmental Quality Board, P.O. Box  
25 8477, Harrisburg, PA, 17105-8477. Comments may also

1 be submitted by e-mail to the EQB at  
2 RegComments@state.pa.us by June 23rd, 2008. All  
3 comments received at this hearing, as well as written  
4 or electronic comments received by June 23rd, 2008  
5 will be considered by the EQB and will become included  
6 in a comment/response document, which will be prepared  
7 by the Department and reviewed by the EQB prior to the  
8 Board taking its final action on this regulation.  
9 Anyone interested in a copy of the transcript of this  
10 hearing may contact the reporter here this afternoon  
11 to arrange to purchase a copy.

12 I would now like to call the first  
13 witness and we have no pre-registered witnesses today,  
14 so I would invite anyone interested in offering  
15 testimony to step forward. We will leave the record  
16 open for a period of time to see if anyone arrives.

17 SHORT BREAK TAKEN

18 MR. HENDERSON:

19 We have no other witnesses present on  
20 behalf of the Environmental Quality Board. I hereby  
21 adjourn this hearing at 2:24 p.m.

22 \* \* \* \* \*

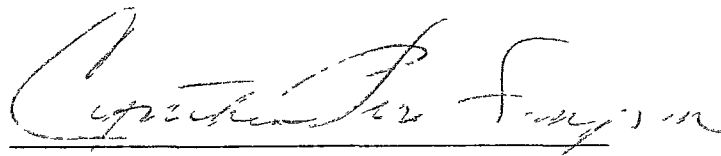

23 HEARING CONCLUDED AT 2:24 P.M.

24 \* \* \* \* \*

25

C E R T I F I C A T E

I hereby certify that the  
foregoing proceeding Shirley  
was reported by me, that I have read this  
transcript on 6/15/02, and I attest  
that this transcript is a true and  
accurate record of the proceeding.
