Mr. Coccodrilli,

I wanted to send a brief note expressing my opinion that additional testing outside of what exists in the schools today seems overly burdensome for our students and will force further compromise of the educational curriculum to optimize for yet another set of standardized tests. This is an opinion that I hold for my two older children that are on the upper end of the performance curve and for my youngest, a special needs child.

I would be happy to discuss further if you would like.

Best regards,

Jason Wainstein
