**To:** IRRC  
**Subject:** Keystone Exams Regulations #2692

To: Chairman Arthur Coccodrilli,

I write in passionate support of the efforts to institute stronger, more consistent statewide standards for high school graduates. It is my firm belief that the Keystone Regulations # 2692 are a step in the right direction. As a superintendent of schools with 36 years experience in this position, I strongly encourage implementation. Pennsylvania needs to create an educational climate that will help ensure our graduates from high school are properly prepared to compete in the 21<sup>st</sup> century.

Sincerely,

M. Joseph Brady, Superintendent  
Minersville Area School District  
Minersville, Pa.
