Subject: Reg 6-312

Message:

As a veteran of forty-two years of service to public education in Pennsylvania I would like to offer my support for Reg 6-312. By way of a context for this support I have served both as a teacher and as an administrator in rural, urban and suburban school districts throughout the state. Further, I have taught administrative leadership courses in several Pennsylvania universities. I believe that my knowledge and insight, coupled with my experiences, afford me the necessary background to support Reg 6-312. I believe that it is in the best interest of students to require graduation standards with adequate supports for ALL. I feel that it is critical that students, parents and school leaders be held accountable for student learning. Further, it is my belief that we must prepare all students with the skills necessary to be college or workforce ready without remediation. I believe that Reg 6-312 is a step in that direction.
