Subject: additional testing

Please know that as a mother of 4 in the Council Rock District, I am extremely against additional testing for our seniors. My elementary level children's education is disrupted for PSSA's, middle school again and my soon to be 10th grader will be experiencing interruption in learning in the coming years.

Enough, already! My son is an honor student who's time is valuable. Don't take him away from learning for more testing! I would rather have him in Math class then in standardized testing. By 12th grade, who graduates should already be determined. If the requirements are met, the child graduates! Thanks, Eileen Schwartz
