INDEPENDENT REGULATORY
REVIEW COMMISSION

Dear Mr. Buckheit,

Please register my objection to adding Graduation Competency Assessments or GCA's to the list of requirements for students to graduate from high school. We do not need to spend the money developing these tests nor administering these tests. We need smaller classes, tutoring, parental involvement and summer programs before we need further testing. The PSSA's are already too much. Thank you for registering my objection. Sincerely,

Jean Leiboff
