**Subject:** GCA

Hello,

My name is Tracy deCerchio. I believe the teachers and individual schools should be the ones to decide whether or not further testing is necessary for a student to graduate not a proposed GCA bill by the Dept of Education. After all their hard work for four years or more, they are the ones who would know best. Please listen to the community and the teachers and allow them to do what they are paid to do everyday.

Thank you

Tracy deCerchio
