REVIEW COMMISSION**Subject:** Graduation Requirements Feedback

My opinion regarding the graduation assessment exams is that they should not be required. The high school juniors and senior have enough exams (PSAT, SAT, PSSA, midterm and final exams, AP exams, etc). Additional exams would give them less time for learning and more pressure to perform. High school seniors have to pass a given number of classes to graduate which should prove that they are ready for college. State funds should be used to keep good teachers.

Thank you.

Molly Stewart
