INDEPENDENT REGULATORY  
REVIEW COMMISSION

Dear Sirs,

I want you to know that I am very much opposed to the idea of GCA's! We already have a warped sense of what should be taught in our schools, under the name of PSSA testing. We no longer have the time to teach common sense ideals they will need to survive in this world. Please do not make this worse by adding this cement block to our shoes as educators.

Sincerely,  
Gail Morrison  
Librarian
