Mr. Buckheit =A0--=0A=A0=0AI am writing to express my opposition to the GCA= s, due to my belief that our school district already spends much of the stu= dents time testing. =0A=A0=0ACurrently we test the Tredyffrin/Easttown stud= ents in math, reading and science through the state PSSA exams. The student= s are already reaching proficiency in these areas.=A0 To spend the school y= ear double testing the students on the same or other closely related matter= is a waste of valuable time they could spend learning. =0A=A0=0AThis effort= t appears targeted on identifying a small segment of the student population= , currently falling through the cracks, through another test vehicle.=A0 Ar= en=A2t these students already identified through years of PSSA exam history= ?=A0 =0A=A0=0AOur collective goal should be to challenge minds and to expan= d the educational experience for all children, preparing them for a work li= fe that is challenging and looking for creative solutions to complex issues= . The current initiative does not support this goal.=0A=A0=0A=A0=0AGail T. =
