Subject: Keystone Exams

Message:

Although I am for improving our educational standards I've been reading about the Keystone Exams and I don't think we should push this proposal through as it currently stands. There are other ways of regulating graduation standards without a test that has the ability to deprive individuals of future education opportunities. Additionally, at a time when our state is on the verge of bankruptcy and we can't agree on a state budget why rush a multimillion dollar program through the back door. We need to be more responsible in how we are spending taxpayers money.
