Concerning Reg. No. 14-514

I wish there was more professional
care given to assisted living patients
in Ann's Choice in Warmenster.

I thought only nurses could give
needles to patients. Up there anyone
can give them. They don't have enough
professional help in that building for

the Assisted Living patients. They are charged enormous amounts of money each month and for people to eat cold food, that was supposed to be hot, & served on a plastic plate is outrageous.

I know of someone who ordered a soft cooked egg, bagel & coffee. She waited over an hour. No coffee ever came.

The egg was on the tray - no saucer for it & no spoon. I guess these patients are

afraid to speak up. Please check this

place out. They should not go 10 days before the bed is changed. "a tappage"
