INDEPENDENT REGULATORY
REVIEW COMMISSION

I am so excited and thankful to hear of the latests news concerning Dental Hygienists and local anesthesia. This is a long awaited break-through for all hygienists and this only makes this career that much more appealing. This will better a dental office in every aspect. Thank you so much for taking the time and consideration to make this possible!!!! I am a first year student at the Westmoreland County Community College in Youngwood, PA, and I am enjoying school ever so much and these changes make my career choice entirely satisfying! Thank you!!!
