

Dear Member of the State Board of Dentistry.

#2720 I'm writing in support of the proposed regulations permitting my dental hygienist to administer local anesthesia. I have been a periodontal patient for over 33 years and previously had my local anesthesia delivered by my dental hygienist. I have always felt confident & comfortable with the provision of this service. I am looking forward to my dental hygienist being able to offer this service to me again.

Please let it happen soon!

Thank you so much,

Mrs. Maryann Sansone

Please excuse the crooked writing!  
I'm not too good with lined paper!

Thanks!
