Dear Mr. Grawtch:

INDEPENDENT REGULATORY  
REVIEW COMMISSION

I am writing to express my support for the changes proposed in the Dental Hygiene Regulation in the Pa. Dental Practice Act.

2 no longer practice due to Parkinsons Disease but keep updated on the newer techniques around the country and Pennsylvania should be (and is not one of the leaders) for services provided to the public. Enhance the public health of the people of this state by passing these regulations very soon!

Thank you for your consideration
