

Dear Members of the State Board of Veterinary.

I am writing in support of the proposed
regulations permitting registered dental hygienists
to administer local anesthesia. I have been a procedural
patient for 33 years and previously had my local
anesthesia delivered by my dental hygienist.

I always felt comfortable and confident with the provision
of this service. I am so looking forward to my dental
hygienist being able to offer this to me again.

Thank you for your attention
I am,

Please excuse the crooked writing!

I'm not so good with unlined paper!

Thank!
