Dear Mr. Gravich,

I am writing in support of the changes in dental hygiene regulations. I have been a hygienist for 15 years in the state of PA and a certified dental assistant by DANB for twentyfive years prior to my dental hygiene licensure. As a member of PDHA for the past 15 years, I am pleased to finally see the changes in the dental hygiene regulations that we have advocated for over 10 years. I had hoped to see them come to pass before I retire! Let us together press on to see our profession better serve the needs of the PA residents!
