INDEPENDENT REGULATORY
REVIEW COMMISSION

To Whom It May Concern:

I am writing you in support of the motion to pass the new laws for dental hygienists to administer local anesthesia. This positive change for the state of Pennsylvania will encourage the entire dental field to provide more specific care. This will also enable the hygienists to provide the care and comfort that the patients need without stealing precious time from the dentists. Moreover, making it an option for each hygienist will encourage further schooling and more revenue to the businesses of the state of Pennsylvania.

Thank you for your consideration on this matter.

Sincerely,

Leah R Engler, RDH
